## *THE FUTURE OF LOW-COST HOUSING*

**Presenting 375 New Homes to Rise in the  
Center of Historic Hollywood.**

Solving LA's housing crisis starts with providing decent  
housing everyone can afford.

Creating affordable housing requires that new construction  
be much less expensive.

Gateway Hollywood, utilizing cutting-edge modular  
construction, will be built at half the cost and half the time.

Only with a can-do attitude can LA climb out of our  
affordable housing humanitarian crisis.

AHF's Healthy Housing Foundation now embarks on a  
journey of improvement with the Hollywood community.
