

# \$100,000,000 Homeless Challenge

**AHF's Healthy Housing Foundation issues this challenge to the Los Angeles City Council:**

**We will invest \$100 million to buy and rehab buildings over the next three years if the city, state, and feds will match it.**

**At \$100,000 per unit, this will house 2,000 of LA's poorest residents - a big dent in our homeless population.**

**We also need your help to move us through the permit and inspection process in record speed and to waive any city fees.**

**Five homeless people die on LA's streets every day.**

**Decisive action is needed urgently.**
